## SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier Trade name	
Trade name	
Design code	: A13972A
1.2 Relevant identified uses of t	he substance or mixture and uses advised against
Use of the Sub- stance/Mixture	: Fungicide
1.3 Details of the supplier of the	safety data sheet
Company	<ul> <li>Syngenta SA (Pty) Ltd</li> <li>PO Box 1044</li> <li>No 4 Krokodildrift Avenue</li> <li>Brits 0250 South Africa</li> </ul>
Telephone	: +27 (0) 12 2506 300
Telefax	: +27 (0) 12 2503 125
E-mail address	: sds.ch@syngenta.com
1.4 Emergency telephone numb	er
Emergency telephone number	: +27 (0) 83 1233 911

## **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)					
Acute toxicity, Category 4	H302: Harmful if swallowed.				
Reproductive toxicity, Category 1B	H360Df: May damage the unborn child. Suspected of damaging fertility.				
Acute aquatic toxicity, Category 1	H400: Very toxic to aquatic life.				
Chronic aquatic toxicity, Category 1	H410: Very toxic to aquatic life with long lasting effects.				

#### 2.2 Label elements

#### Labelling (REGULATION (EC) No 1272/2008)

:

Hazard pictograms

Signal word

: Danger

Version 4.0	Revision Date: 20.04.2016	SDS Number: S23052973	This version replaces all previous versions.
Hazaı	rd statements	: H302 H360Df H410	Harmful if swallowed. May damage the unborn child. Suspected of damaging fertility. Very toxic to aquatic life with long lasting effects.
	lemental Hazard ments	: EUH401	To avoid risks to human health and the environment, comply with the instructions for use.
Precautionary statements		<ul> <li>Prevention: P201 P280</li> <li>Response: P308 + P313</li> <li>P391 Disposal: P501</li> </ul>	Obtain special instructions before use. Wear protective gloves/ protective clothing/ eye protection/ face protection. IF exposed or concerned: Get medical ad- vice/ attention. Collect spillage. Dispose of contents/ container to an ap- proved waste disposal plant.

Hazardous components which must be listed on the label: tetrahydro-2-furylmethanol

#### 2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

# **SECTION 3: Composition/information on ingredients**

#### 3.2 Mixtures

## Hazardous components

Chemical name	CAS-No. EC-No. Registration number	Classification (REGULATION (EC) No 1272/2008)	Concentration (%)
tetrahydro-2- furylmethanol	97-99-4 202-625-6 01-2119968921-26	Eye Irrit. 2; H319 Repr. 1B; H360Df	>= 70 - < 90
azoxystrobin	131860-33-8	Acute Tox. 3; H331 Aquatic Acute 1; H400 Aquatic Chronic 1; H410	>= 3 - < 10
poly(oxy-1,2- ethanediyl), alpha- phosphono-omega- [2,4,6-tris(1-	90093-37-1 618-446-5	Eye Irrit. 2; H319	>= 3 - < 10

Version 4.0	Revision Date: 20.04.2016	SDS Number: S23052973	This version repl	aces all previous versions.
poly(c ethan tris(1-	ylethyl)phenyl]	99734-09-5	Aquatic Chronic 3; H412	>= 2.5 - < 10

For explanation of abbreviations see section 16.

# **SECTION 4: First aid measures**

## 4.1 Description of first aid measures

	General advice	:	Have the product container, label or Safety Data Sheet with you when calling the emergency number, a poison control center or physician, or going for treatment.
	If inhaled	:	Move the victim to fresh air. If breathing is irregular or stopped, administer artificial respira- tion. Keep patient warm and at rest. Call a physician or poison control centre immediately.
	In case of skin contact	:	Take off all contaminated clothing immediately. Wash off immediately with plenty of water. If skin irritation persists, call a physician. Wash contaminated clothing before re-use.
	In case of eye contact	:	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses. Immediate medical attention is required.
	If swallowed	:	If swallowed, seek medical advice immediately and show this container or label. Do NOT induce vomiting.
4.2	Most important symptoms and	l e	ffects, both acute and delayed
	Symptoms	:	No information available.

## 4.3 Indication of any immediate medical attention and special treatment needed

Treatment

: There is no specific antidote available. Treat symptomatically.

Version Revision Date: 4.0 20.04.2016

SDS Number: S23052973

This version replaces all previous versions.

# **SECTION 5: Firefighting measures**

#### 5.1 Extinguishing media

Suitable extinguishing media	:	Extinguishing media - small fires Use water spray, alcohol-resistant foam, dry chemical or car- bon dioxide. Extinguishing media - large fires Alcohol-resistant foam or Water spray
Unsuitable extinguishing media	:	Do not use a solid water stream as it may scatter and spread fire.
5.2 Special hazards arising from t	the	e substance or mixture
Specific hazards during fire- fighting	:	As the product contains combustible organic components, fire will produce dense black smoke containing hazardous prod- ucts of combustion (see section 10). Exposure to decomposition products may be a hazard to health.
5.3 Advice for firefighters		

## 5.3 Advice for firefighters

Special protective equipment	:	Wear full protective clothing and self-contained breathing ap-
for firefighters		paratus.

#### **SECTION 6: Accidental release measures**

6.1 Personal precautions, protective equipment and emergency procedures				
Personal precautions :	Refer to protective measures listed in sections 7 and 8.			
6.2 Environmental precautions				
Environmental precautions :	Prevent further leakage or spillage if safe to do so. Do not flush into surface water or sanitary sewer system. If the product contaminates rivers and lakes or drains inform respective authorities.			
6.3 Methods and material for contai	nment and cleaning up			
Methods for cleaning up :	Contain spillage, and then collect with non-combustible ab- sorbent material, (e.g. sand, earth, diatomaceous earth, ver- miculite) and place in container for disposal according to local / national regulations (see section 13).			

## 6.4 Reference to other sections

Refer to disposal considerations listed in section 13., Refer to protective measures listed in sections 7 and 8.

Version Revision Date: 4.0 20.04.2016

SDS Number: S23052973

This version replaces all previous versions.

# **SECTION 7: Handling and storage**

#### 7.1 Precautions for safe handling

Advice on safe handling :	No special protective measures against fire required. Avoid contact with skin and eyes. When using do not eat, drink or smoke. For personal protection see section 8.
7.2 Conditions for safe storage, inc	luding any incompatibilities
Requirements for storage : areas and containers	No special storage conditions required. Keep containers tight- ly closed in a dry, cool and well-ventilated place. Keep out of the reach of children. Keep away from food, drink and animal feedingstuffs.
Other data :	Physically and chemically stable for at least 2 years when stored in the original unopened sales container at ambient temperatures.
7.3 Specific end use(s)	
Specific use(s) :	For proper and safe use of this product, please refer to the approval conditions laid down on the product label.

# **SECTION 8: Exposure controls/personal protection**

#### 8.1 Control parameters

#### Occupational Exposure Limits

Components	CAS-No.	Value type (Form of exposure)	Control parameters	Basis
azoxystrobin	131860-33- 8	TWA	4 mg/m3	Syngenta

#### 8.2 Exposure controls

#### **Engineering measures**

Containment and/or segregation is the most reliable technical protection measure if exposure cannot be eliminated.

The extent of these protection measures depends on the actual risks in use.

If airborne mists or vapors are generated, use local exhaust ventilation controls.

Assess exposure and use any additional measures to keep airborne levels below any relevant exposure limit.

Where necessary, seek additional occupational hygiene advice.

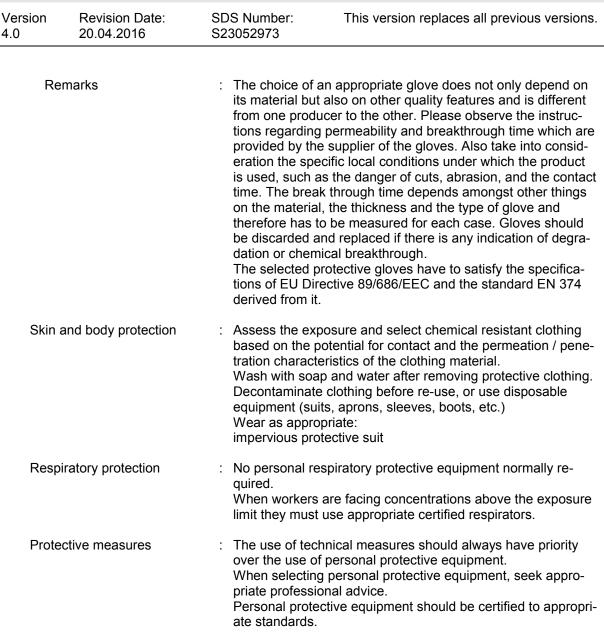

## Personal protective equipment

Eye protection	No special protective equipn	nent required.
----------------	------------------------------	----------------

Hand protection	
Material	: Nitrile rubber
Break through time	: > 480 min
Glove thickness	: 0.5 mm

4.0

## **SECTION 9: Physical and chemical properties**

#### 9.1 Information on basic physical and chemical properties

Appearance	: liquid
Colour Odour	: light amber to amber : Faint aromatic
рН	: 2 - 7, Concentration: 1 % w/v
Flash point	: 75 °C (1033 hPa)
Density	: 1.08 g/ml (25 °C)

Version 4.0	Revision Date: 20.04.2016	SDS Number: S23052973	This version replaces all previous versions.
Auto-	ignition temperature	: 265 °C	
Visco Vis	sity cosity, dynamic	: 42.1 mPa.s (2	0 °C)
		29.1 mPa.s (4	0 °C)
Explo	sive properties	: Not explosive	
Oxidi	zing properties	: The substance	e or mixture is not classified as oxidizing.
	information ce tension	: 40.3 mN/m, 20	D° C

# **SECTION 10: Stability and reactivity**

#### 10.1 Reactivity

See section 10.3 "Possibility of hazardous reactions".

#### 10.2 Chemical stability

The product is stable when used in normal conditions

# 10.3 Possibility of hazardous reactions Hazardous reactions : No hazardous reactions by normal handling and storage according to provisions. 10.4 Conditions to avoid Conditions to avoid : No decomposition if used as directed. 10.5 Incompatible materials Materials to avoid : No substances are known which lead to the formation of hazardous substances or thermal reactions.

#### **10.6 Hazardous decomposition products**

Combustion or thermal decomposition will evolve toxic and irritant vapors.

## **SECTION 11: Toxicological information**

#### 11.1 Information on toxicological effects

#### Acute toxicity

#### Product:
